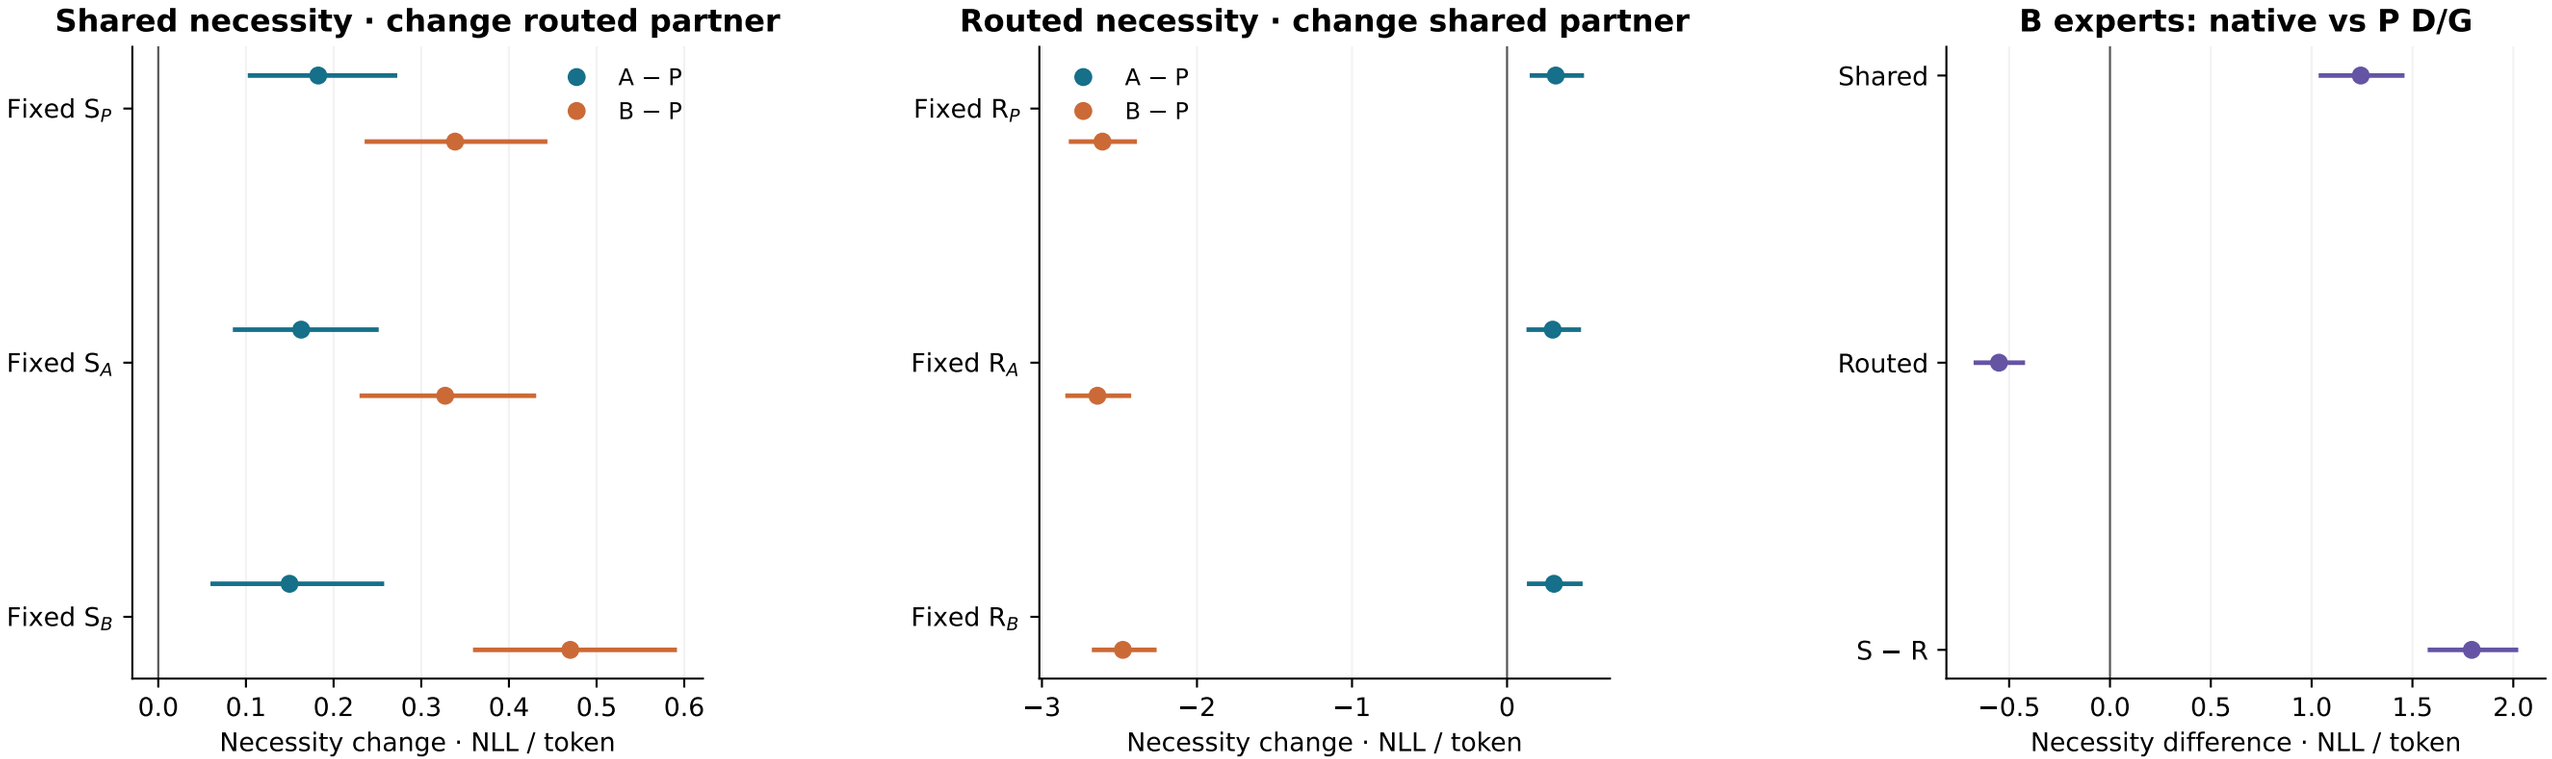
Necessity changes at fixed expert suite



All 128 questions: 64 biology + 64 mathematics; equal-subject macro, 1,000 paired question bootstrap draws, seed 159001.
S − R cancels the full-performance term and is not a responsibility fraction.
Left/middle: D/G parameters fixed to P. Right: same B expert functions, native B versus P D/G.
Expert function suites span 16 layers; hidden states and routing remain endogenous.
