

Open: E156 whole bank; filled: E157 partial graft; arrows connect matching R/S sources.
Horizontal bars: paired 95% question CI for partial full − PP. Gray native references use their own D/G.

On-domain combines two fixed grafts by known subject (Bio/Math). Masked coordinates are inherited from E156; unchanged y is an operator identity, not a new finding. Off-domain masked values were not measured.
